

DESTINATION RECORDINGS

We hold recordings at destination locations within Middle Tennessee. These can be in an office with a professional background or at a nice staged home. The location could be at a park, a venue, or a landmark. Have an idea? Let's talk about options!

SIGNUP & SCHEDULE

Check our calendar and book a time for your Destination Recording, plus an appointment for the pre-recording virtual meeting.

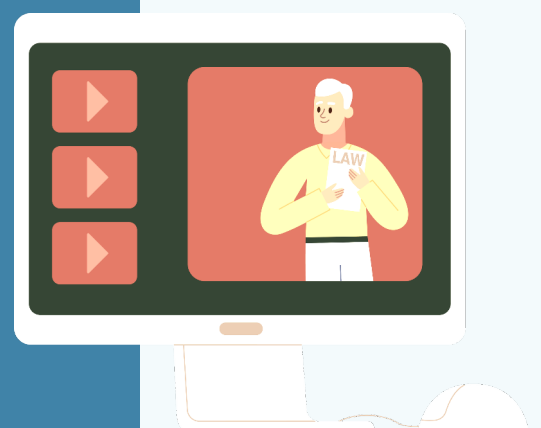

SEND BRANDING IMAGES

We add your company logo, your name and contact info to your video as a lower third. These graphics must be in a transparent format such as png or tiff. You can send them as individual logo files or as one, full screen graphic (a 1920x1080 title screen).

ATTEND VIRTUAL CONSULTATION

This meeting is held before your recording to talk about content, the overall plan for your content, and some tips and tricks.

ARRIVE PREPARED

Show up for your shoot on time and prepared. Practice your talking points... this will save you editing fees and help you look more professional.

VIDEO DELIVERED QUICKLY

Our goal is to get your final product back the next day.
